THE GENUINE

DR. C. McLANE'S

CELEBRATED

LIVER PILLS,

FOR THE CURE OF

Hepatitis, or Liver Complaint,

DYSPEPSIA AND SICK HEADACHE.

Symptoms of a Diseased Liver.

PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. C. McLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL.

For all bilious derangements, and as a simple purgative, they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated.

Every box has a red wax seal on the lid, with the impression DR. McLANE'S LIVER PILLS.

The genuine McLANE'S LIVER PILLS bear the signatures of C. McLANE and FLEMING BROS. on the wrappers.

Insist upon having the genuine DR. C. McLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name *McLane*, spelled differently but same pronunciation.

Poetical.

LITTLE BARBARA.

Pretty Barbara, ripe and red,
With sweet, small mouth like the bees abed,
And full of nectar and honey dew;
So pretty a thing, I dare not swear
To the art of the ribbon that ties her hair,
Or the buckle that binds her shoe;
So like her each trinket she has to wear,
It seems just as if it grew
Like a rose in its petals and pollen dust;
That wears its beauty because it must,
And something like Barbara, too.

As she dips her small, tin bucket in
The little fountain of woven glass,
Like webs that the spiders weave and spin
To hang on the shining blades of grass,
A face as bright and happy as hers,
In the nets of the silken gossamers,
Looks out of the water's smooth eclipse,
As if it was happy to hold within it
The soft verbena red of her lips,
And kiss and caress her just for a minute,
In the arms of the dimples, smooth and still,
Ere it goes and soberly turns the mill.

For life to her in the honey dew
Is nothing yet but the wayside spring
Between the upper and under blue,
That makes a fiction of every thing,
As perfectly like as if it grew;
And she is too happy to see within it
The shape of her small sweet self a minute,
From the bow in the hair to the tie of her shoe,
To know what the marvelous shadows mean,
The simple inner beauty that shows
But now in the color of a rose,
And now like the water's smooth eclipse,
In hearts that held her picture still,
As we go and soberly turn the mill.

Selected Miscellany.

[Published by request.]

PATTERSONS CARD AGAIN.

(From Free Will Baptist.)

In its issue of the 20th inst, the Goldsboro MAIL has the following card to the public:

[Here followed the card of R. A. Patterson in regard to Mrs. Sallie Andrews.]

Personally we know nothing of this lady's past life; we were introduced to her during a revival at Fremont, only know that she was introduced to us as a member of the Society of Friends, a minister in good standing; also, that she has preached in many of our churches, that all who have been with and seen her, not only speak in her praise, but love her. The Holy Spirit seems to hover over her congregations, and to accompany her words carrying conviction to the hearts of the wicked, bringing them to the foot of the Cross. Wherever she has met with us, the cries of the penitent, and the glad shouts of new born souls have been heard; every church she has visited has been revived and built up.—We also know that under her ministrations we have felt that Spirit within our own bosom, stirring up our heart to redoubled diligence in our Master's cause, and we bless the humble instrument that has so benefitted us, whatever her past life has been.

We regret the action of the Rev. Mr. Patterson, and confess that we cannot see the necessity for such a step. She does not claim to be a member of his church, nor any authority to preach from the same. Then why this card, this unprovoked attack? She was, he says, "expelled from his church *two years ago* for lying, leaving and refusing to live with her husband, and for attempted abortion," and he says, "those charges were sustained." This may all be so, but does he contend that she is not a christian now? Does it necessarily follow, that, because she was a sinner then she is now? Does the brother contend that she was guilty of the unpardonable sin, and that there was now no sacrifice for her?—Does he contend that her heart was so loaded with guilt, that the Blood of Christ can never cleanse it?

Since the time, that the brother claims that she was expelled from his church, she has not only been admitted as a member, by our brethren, the Friends, but has by them been authorized to preach the Gospel. Now, we don't for a moment suppose, that our sister church would authorize a man or a woman, as vile as he would have us believe her to be, to preach with their sanction, or by their authority any more than we would believe his own church. They (the Quakers) must have had good evidence that the lady was not an imposter or hypocrite, or we believe they would never have given her authority to preach. They, as a church are noted for their zeal and piety, their unassuming, plain friendly action, which has won for them an enviable reputation, and they would be the last to arm a devil with a commission to go out in the Master's vineyard. Perhaps, if some of the former associates of our brother, would open up his past life, they would find stains and sins, both of commission and omission, that would be unworthy of the position he now fills, and would render him obnoxious, not only to strangers, but his own flock; and they could with the same propriety pronounce him an impostor. We know that the brother is no better that the great Apostle to the Gentiles and we suppose that if his brethren at Jerusalem had sent before him to the cities he visited, a few facts of his past record, he would have been deemed an imposter, unworthy of the high position he held in the esteem of his brethren. We remember on a certain occasion, a woman was brought before, not a poor, fallen man liable at all times to err, but before the Immaculate Savior. Did He condemn that repentant soul as the brother has done? No; but with the blessed words, "Neither do I condemn thee: go and sin no more," she went on her way rejoicing in her new found peace. This brother has cast the first stone. Is he without sin? Is he more able to judge her aright, than the church to which she belongs, and by whose authority she proclaims the gospel? Does the brother claim that the moral status of his church is superior to that of the Friends? Does he claim that a soul that is to day a sinner, or even steeped in crime, cannot in the space of two years become, not only a child of God, but an humble disciple to proclaim his Gospel? Does the brother claim that, it takes over 2 years for the Blood of Christ to cleanse from all sin? No, he knows that in a twinkling of an eye, that it can and will make the guiltiest soul clean. The thief upon the cross appealed to our Savior, after he received the promise, was he a thief still? No; for no thief can enter there. Then by what authority does the brother still condemn her, after she has joined another church, and is proclaiming the Gospel? Can he pronounce her the same to day, that she was two years ago?

We find by reference to our Bible, that we are not to judge, if we do, the same judgement shall be meted out to us. God forbid that our brother should have the same judgement meeted out to him, that he has to this afflicted sister. Were we a man and brother, gifted with sight, we could overlook the uncalled for assault; but a lone woman, deprived of that greatest of earthly blessings, sight; we cannot close our eyes to such an assault, nor stop our ears to the afflicted, persecuted and helpless. To attempt to throw a stumbling-block in the way of such a one! Oh Charity, Angel from above! Hast thou flown from the breast of man? O Mercy, hast thou fled from Earth and returned to the bosom of thy Creator.

In conclusion, we would say, we care not what the sister has been, or was two years ago, but for what she is at present, and we know by the fruit this tree bears; the immortal souls gathered through her instrumentality into the fold of her Redeemer; since she came among us, those sightless eyes moved to tears by the fervor of her devotion, the radiant beams of light that flashes o'er her countenance from an overflowing heart, the love and zeal she has shown and her godly walk and conversation, proves that she has been with Him. This is all we wish to know, and therefore with all due respect to the brother's position, and the evidence he has produced we say to our sister, God speed you in your good work.

Tilden and Randall Again.

It seems pretty well understood in the East that since the defection of Mr. Hendricks, Mr. Tilden has concluded an alliance offensive and defensive with Speaker Randall. If Mr. Tilden is to have his way it is not understood that the ticket for 1880 will be Tilden and Randall.—*Leavenworth Press.*

An Able Explanation.

Two hundred and fifty millions is the amount the Republicans have stolen from the Treasury. No wonder they are opposed to the remonetization of silver. It would be so inconvenient to carry away.—*Denver News.*

The Baltimore *Sun* announces that there is a movement on foot to transfer Judge Settle from Florida to the bench in Washington, to fill the vacancy caused by the death of Judge Humphreys.

A five year old girl, lost in Minnesota woods, had the good sense to hang bits of her dress on bushes as she wandered, and these led to her discovery after she had lived four days on berries and wild onions.

The international cricket match, between the American and Canadian teams, will take place at Ottowa in the latter part of August, and will last three days.

The trial of two hundred Nihilists, by court martial, will commence at Odessa, Russia, in August.

[For the MAIL.]

The Ashe Family.

John B. Ashe entered the army at an early age. He was appointed on the 17th of April, 1776, a captain in the 6th regiment of State troops in the Continental service, commanded by Colonel Alexander Lillington, and promoted to a Lieutenant-Colonelcy, and as such served at the hard fought battle of Eutah Springs in September 1781. After the close of the war he was elected a member of the Continental Congress in 1787, and served until 1788, and a member of Congress under the Constitution from 1790, and served until 1793. He settled in Halifax, married a daughter of Col. Montford and sister of Mrs. Wilie Jones. It was this lady whose wit caused even the martial spirit of Tarleton to quail. In 1795 he represented Halifax county in the House of Commons, and about this time was elected Governor of the State, but died before his inauguration. His brother, Samuel Ashe, was born in 1763. He entered the army in 1779 at the early age of sixteen as a Lieutenant. He joined Gen. Lincoln at Charleston and was captured at that place in May, 1780. After a captivity of 15 months, he and his company were shipped to Jamestown, Va., where they were exchanged. He joined the army under Lafayette, and was soon after transferred to Gen. Green's army, with which he continued until the close of the war.

Samuel Ashe, son of Gen. John Ashe, has often represented New Hanover in both branches of the General Assembly. His last session was in the Senate in 1817. He died about forty-eight years ago.

Of this family there were in the Revolutionary war five officers at one time, all actively engaged in the service of their country—Gen. John Ashe and his son, Capt. Samuel Ashe, and John Baptist Ashe, Samuel Ashe and Cincinnatus Ashe, captain of marines. Worthy is such a family of the record of their deeds, and worthy are their names to be preserved in one of our mountain counties. Of the family of Butlers at a dinner in Philadelphia Gen. Lafayette gave a toast that "when he wished, in the Revolutionary war, anything *well* done, he got *a Butler* to do it." Might not North Carolina say the same of the name of Ashe? J.

[For the MAIL.]

NASHVILLE, N. C., *July 23rd, 1879.*

MR. EDITOR: News is scarce hereabouts. The crops, which at one time promised to be unusually good, are now suffering severely. There has not been a good season here since May. There has been showers in some places, but only in narrow belts. If there should be rains now many crops would be cut short one-third or one-half.

The County Commissioners were in session yesterday revising and drawing Jury List.

Our jail has only one occupant at present. The county authorities will have to spend several hundred dollars this fall in putting in the fixtures necessary to keep the prisoners warm next winter.

There will be a meeting of the canvassers of the Louisburg branch of the Wilmington & Weldon Railroad, at Castalia on Saturday, August 2nd.—This is a project, if successful, will be a good feeder to the main line and a great benefit to the section through which it will run. We would like to have President Bridgers or some of the officials of the Wilmington road with us on that occasion.

Mr. C. E. Barnes of Nashville has a sheep which for several weeks has been cutting up some strange antics. It has some disease or injury of the head it is thought, which causes it to run in a circle with all the regularity and earnestness of a circus horse. Whenever driven up it strikes a lope or run, going in a circle, always turning to the right, the circles decreasing, and if approached by any one or coming against any obstacle, it moves off to another place and keeps up its performance till exhausted. When first examined its right ear appeared to have been slightly bitten at the tip, but besides this nothing wrong could be found. There are no symptoms of hydrophobia, at any rate it has not yet tried to *bite* any one.

G.

A letter from ex-President Davis, received in New York by a brother of Mrs. Sarah A. Dorsey, who bequeathed all of her property to the former, eulogizes very highly the character of the deceased. He does not speak with surprise of the bequest. It is nevertheless positively stated that the will is to be contested, without compromise, upon the ground of undue influence, or inability to execute such an instrument. Able counsel in this city and in New Orleans have already been engaged.

Tribute of Respect by the Amateur Press Association.

WHEREAS, The members of the N. C. Amateur Press Association miss from his accustomed place the familiar face of our late brother, WM. BONITZ, Jr., whose death has severed him from our ranks and the professional intercourse which bound him to our membership. Therefore,

Resolved, That by the death of our late brother the people of Goldsboro, among whom he was born and raised, who so well remember his ardent zeal, his genial nature, his kind and courteous manners have sustained a loss which is irreparable.

Resolved, That we, the members of N. C. Amateur Press Association, who entertain for him the warmest feelings of friendship and brotherly love, while humbly bowing to the will of Almighty God, realize the fullest extent that the death of our brother has left a vacancy among us which continually reminds us of his many virtues, and so long as modest worth, strict integrity, gentlemanly deportment and all the traits of a high sense of honor which is appreciated by Amateurs, the name of Wm. Bonitz, Jr., will never be forgotten.

Resolved, That a copy of these resolutions be furnished to the family of the deceased and that all the Amateur Papers in the State publish them, also the Goldsboro *Messenger* and Goldsboro MAIL.

A company of Russian soldiers, while recently on their way to Elisabethpol, were beset with clouds of grasshoppers that frightened them more than the Turks ever did. At night they could not sleep: their guns, uniforms and they themselves were covered with these insects, that crept into their mouths, noses and ears. The officers fled into the houses, but the plague of grasshoppers had previous possession. A region of fifteen miles was thickly covered with them and all the grain and grass were instantly destroyed.

A man in Missouri cutting down a large oak tree found when splitting it an auger hole into which a wooden plug had been driven. The pin was perfectly concealed by the growth of the tree which showed that the hole had been bored and the plug inserted some seventeen years before. In the hole was an auburn lock of woman's hair in excellent preservation, soft and glossy.

A special to the *Times*, from Quincy, Ill., says a band of determined men entered the jail where Frank Hobbes, (colored) was confined, on the 24th, on the charge of criminally assaulting and nearly killing Mrs. Ferguson, at Bedding, Pike county, shot him dead, and dragged his body riddled with bullets through the streets. His victim had identified him.

About midnight on the 24th ult a farm house near Conewago New York, occpied by an aged couple name Crosby, was broken open by burglars. Mrs. Crosby was choked to dearh and Mr. Crosby shot, but he is still alive. The thieves obtained three dollars. Suspicion rested on two tramps seen on the road, and the citizens turned out and now have them in custody.

A desperate fight occured Monday, on Long Pine Creek, in the Niobrara river cattle country, Nebraska, between a party of detectives and a gang of thieves and murderers, who infest that region. One of the detectives is missing and one badly wounded, and one of the robbers shot in the groin and will probably die.

Capt. Webb, who swam across the English Channel from Dover to Calais in 1875, in a simple bathing suit, is in New York. He will challenge Capt. Boydton for a swimming match, and will give exhibitions in swimming.—*Wilmington Star.*

Secretary Sherman is up in Maine making some very extraordinary statements about public matters. The question naturally arises, is he making them officially as Secretary of the U. S. Treasury or as a candidate for the Republican nomination for President.—*Raleigh Observer.*

A Catholic priest offered the prayer at the public exercises in Boston on the Fourth of July, and it is affirmed that this is the first instance of the kind in the history of the city founded by the Puritans. On the same occasion a colored lad read the Declaration of Independence.

The wise man has his foible, as well as the fool. But the difference between them is that the foibles of the one are known to the world; and the foibles of the other are known to the world and concealed from himself.

Goldsboro Mail.

W. H. AVERA,.....Editor

FRIDAY, AUGUST 1, 1879.

NOTHING NEW IN IT.

Ex-Governor Pinchback, the Moses of the colored people of Louisiana, says that the new Constitution guarantees in every particular the civil and political rights of the colored citizens of the State. In the public schools, he says the colored people get full recognition. This is just what would have been the case years ago, (as is the case in all the Southern States controlled by the Democratic party) if the management of the political affairs of the State had been left to the people of the State, untramelled by corrupting influences.

SHIPS ON HIGH LAND.

Capt. J. B. Eads, one of the most experienced civil engineers of the age says that a railway across the Isthmus of Panama, to transport ships with their cargoes can be built for less than one-third the cost of the contemplated ship canal. His article on the subject which was first published in the *Tribune* has been copied into the *Scientific American* with approval, and those who shall live a few years longer may expect to see ships from the Atlantic and Pacific oceans transported from sea to sea as glibly as the porter now transfers the baggage of a passenger from the cars to the hotel. But wont a big ship look funny passing through the country on car cradles.

PROTECTION TO ALL.

That all who subscribed to the Harnett road might be protected in not having to pay their stock and then get no road, the following has been printed on the subscription books as the condition upon which stock is subscribed.

"We hereby subscribe the sum annexed to our names to the capital stock of the Goldsboro & Harnett Railway, to be paid in money or kind, as provided in the charter of said Road. The proportion of each and value of kind to be determined by the Board of Directors. With this understanding, that no part of the same shall be called for until in the opinion of said Board a sum sufficient has been secured to guarantee the completion of the entire road."

Now each can subscribe just the amount they would be willing to do if the success or defeat of road depended on there action.

HEALTY INDICATIONS.

Thomas Buford who killed Judge Elliott of Kentucky, because he ruled adversely to the interest of Buford and sister in a case that came before him, has recently been found guilty of murder in the first degree, notwithstanding the great efforts of council to make it appear that he was insane, and under the laws of Kentucky he goes to the States prison for life; and also in New York, where crime has been allowed to go unwhipped of justice under the plea of insanity of the perpetrator, yet a New York jury has found the negro Cox guilty of murder, who killed and afterwards robbed Mrs. Hull. These are healthy indications for the protection of society coming from neighboring States. While in our own common-wealth we have a chief executive that respects the action of Courts by allowing their verdicts to stand as rendered by juries instead of turning loose fellons, thieves and desperadoes generally upon the country. Our laws punish offenders not for revenge, but to protect the virtuous and honest—let it take its course we say, and when a Court after all the remedies of appeal make out a case, let that case stand without executive interference.

COST OF ROYALTY.

"The difference in the salaries paid to kings and royalty and those paid to the servants of the people in our Republic is striking. The Czar of Russia gets $8,250,000 per year, or $25,000 a day. The Sultan of Turkey gets annually $6,000,000, or $18,000 a day. Napolian III. had a salary of $5,000,000 annually or $14,000 a day. Francis Joseph of Austria receives $4,000,000 a year, or $11,000 a day. King William of Prussia is paid $3,000,000 a year, and Victor Emmanuel $2,400,000, and good Queen Victoria manages to live on $2,200,000. Now, in addition to these salaries, each sovereign is furnished with a dozen or more first class residences free of cost.—*Exchange.*

It is among such crowned heads as these that Gen. Grant has been spending his time for the last few years, and he is now to return home in time to accept a nomination for President "just to save the country you know." We suppose about such a save as his "let us have peace" has proven to mean. If plain Democratic America wants to learn to pay homage and contribute hundreds of millions to maintain Crown heads, we say, by all means they should go for Gen. Grant. If on the other hand they desire the old simple plain representative Jeffersonian type of democracy, let them watch these fellows who have such a hankering after European ways and European Monarchs. A word to the wise is sufficient.

WHY IT WAS ANTI-DEMOCRATIC.

We quoted in our last the language of the *Messenger* in giving the reasons that actuated the Commissioners in refusing to submit the question of a county subscription to the people, wherein it said it was because there was danger of carrying it by a class of voters—not tax payers. This anti-democratic dogma, it tries to get out of by asking us questions foreign to the subject, and makes a sickly fling at our position, to hide the naked deformity of its own untenable position. After the expression of fear by the *Messenger* that the question might have been carried, and the further fact, that after repeated calls were made by correspondents throughthe columns of the *Messenger* for anti-countysubscription meetings of which not one was gotten up,is pretty good evidence to us that we were not in the minority on the question if the people had been consulted, and we say, now so far as the expression of the people in a public way is concerned, the case does stand 5 against 3,500 to 4,500. To make criticism upon the cause assigned for the action may appear farsical to the *Messenger*. We can only judge of the motives that actuated the Board by the declaration of their recognized organ and official mouth piece, who said in substance that it was because they were not willing to risk non tax payers to vote up on the question. No one is advocating a county subscription at this time that we know of; the question having been settled by the action of the Board. There was no political significaace in the question until the *Meesenger* saw fit to give it, and if it had not in its statement of the cause of action upon the part of the Board, made an assault upon the principles of a true democracy that we thought required notice—not a murmur would have come from us. If the spirit did not actuate the Board that the *Messenger* assigned them, it is alone reponsible for misrepresenting their motives and it should beg their pardon. It is not the action in refusing to submit of which we have and do in the name of a pure dmocracy protested, but the cause assigned for that action by the *Messenger*, and if the editor will get his paper, rub up his specs and can't see that there is an unjust and insulting fling at the poor, then we shall call for Dr. Grissom to see the brother at once.

HARNETT RAIL-ROAD AGAIN.

The building of this road depends upon the amount of support it shall get from Goldsboro. If Goldsboro will subscribe the $25,000 without too great delay, that we pledged it would do, there is nothing more certain than that the funds can be had to build the road. It's importantance to Goldsboro cannot be over estimated; over it will come to this place the 1st year all of 8,000 to 10,000 bales of cotton that now go to other places for sale; this will gradually increase from year to year. Think friends of the wonderful stimulus this would be to our commerce and other enterprises. Think of the increased volumn of trade; think of the impetus it would give to building and substantial improvements of the place; think of the hundreds of thousands of dollars that would reach the pockets of builders, mechanics and laboring men; think of the thousands of as good people as ever honored a place with their presence and patronage, thronging our streets, seeking our merchandise and filling our market with the choicest products from rich and well cultivated farms, reaching far beyond the Cape Fear River; think of the enhanced value of real estate. Just think if you can grasp it in your mind, the new face it would put upon every thing, and the certain and rapid development of Goldsboro as the great inland centre of commerce for Eastern Carolina. We beg of you friends—citizens of Goldsboro, to think of these things and then answer the question, shall we turn a deaf ear to our interest by neglecting to raise the $25 000 that we pledged the friends along the line that would be raised to offset the $25,000 at the other end of the line. We must raise it; and the more of our citizens take part in bearing the burden, the better for all. We had rather see the amount raised from 200 people than from one individual, even if that one individual could be found to take stock to the whole amount (which it is not probable will be the case). We are not as familiar with the financial ability or the prospective benefits to be derived to each citizen as perhaps others who have been among the people of the place longer, yet we beg to suggest the following destribution of the burdens, viz:

7 persons	$1,000	each,	$7.000.
10 "	500	"	5,000.
20 "	300	"	6,000.
20 "	200	"	4 000.
20 "	100	"	2,000
20 "	50	"	1,000.
Total,			$25,000.

Now in all candor, we ask can't this be done? It surely can to the great benefit of all, and of untold worth to the place. We know of two persons who have signafied their willingness to share the $7,000. This is a favorable start; the other five can be found we think easily, and when this is done we can't think there will be any trouble to find the ten to make up the $5,000, and the 20 can be found to take $300 each without trouble, and so with the 20 at $200 and the $100 and the $50. Let each and all think and talk it over and decide to act at once; the amount can and must be raised.

The payments of stock will be called for in installments as the work progresses Much of it can be paid in kind. Subscribers to the stock will have one to two years to raise and pay in their subscriptions. All along the line of road, they are looking to Goldsboro. $25,000 here insures beyond question the $80,000 pledged in Harnett, Cumberland, Sampson and Johnston. Granthams in Wayne, are willing to do its full share, and is also waiting to see what action our people intend to take. We must move forwards—we can't afford to stand still. These good people that seek commercial relations with us must not be turned away; don't let us think too much about what others aught to do, but rise to a high and noble man-hood, and resolve to do our duty let others do as they may. There will be some always to be found to act like the cowardly athlete husband who got in the loft while his feble wife confronted and slew the bear who sailed down from his place of safety when he saw bruin laying lifeless at the feet of his heroic little wife, to slap his hands and say: "Well Sallie aint we brave boys to kill a bear with nothing but a fire poker." Let there be but few such brave boys in Goldsboro on this question. But why write and make these appeals when so many are only waiting to do their full duty.

The Cotton Movement.

For the week ending July 25, the *Chronicle* reports that total receipts have reached 3,272 bales, against 2,809 bales last week, 3,032 bales the previous week, and 3,637 bales three weeks since; making the total receipts since the 1st of September, 1878, 4,433,653, bales, against 4,256,419 bales for the same period of 1877-8, showing an increase since September 1, 1878, of 177,234 bales.

The exports for the week reach a total of 7,123 bales, of which 6,756 were to Great Britain, 107 to France, and 260 to rest of the continent, while the stocks as made up are now 133,105 bales.

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is a decrease in the exports this week of 1,001 bales, while the stocks are 27,490 bales more than they were at this time a year ago.

Most sections have been visited by satisfactory rains, and the reports this week are more generally favorable. Texs, however, has been suffering from drought, and in some districts rain is badly needed.

Middling uplands cotton was quoted in Liverpool on Friday last at 6 9-16d; in 1878, 6 9-16d; in 1877, 6 5-16d, and and in 1876 5 15-16d.

An Admirable Address.

It was a very fortunate selection when Rev. F. H. Ivey, of Goldsboro, was chosen to deliver the Memorial Address on the Life and Character of the late Rev. Dr. W. M. Wingate, President of Wake Forest College. The published address is a tasteful, appropriate, just and elegant tribute to a great preacher and a most devout, earnest, spiritual Christian, who is now a saint in glory. It is a pleasing contribution to the memorial literature of North Carolina. The artists is successful in delineating the very beautiful and lovely character of the departed worthy, who united in himself sweetness and light in a more marked degree than any other man we have ever known. The portrait, if not complete in every detail, is life-like and truthful. The colors have been used with descrimination and proper restraint, and the general effect is happy and satisfactory to those who knew the original. The eulogist has not overdrawn the character he discusses with so much of insight and tenderness. We believe that Dr. Wingate was all that he is represented to have been. He had the simplicity of a woman, the moral courage of a strong and resolute nature, and an intellect that was delicate yet virile, acute yet bold, vigorous yet philosophical, imaginative yet practical. When he passed away in Febuary last a lofty soul returned to God and a great man fell in Israel.

"Like a shadow thrown
Softly and sweetly from a passing cloud,
Death fell upon him."

—*Wilmington Star.*

We have read the address with great satisfaction and pleasure and heartily concur with Bro. Kingsbury in every word he has said. It may be had by sending two three cent postage stamps to Rev. F. H. Ivey, Goldsboro, N. C., who has been prevailed upon to accept this small remuneration to aid him in paying postage and bearing the cost of publication, which was done at his expense.

"Red-Tape."

NEW YORK, July 22, 1879.

Editor of the Journal of Commerce:

Will you kindly inform the subscriber the origin of the word "red-tape" and its meaning? J.

Reply.—For many centuries in England all legal and official papers, when placed together in order, were tied with red-tape. Hence "red-tapism" came to signify a strict adherence to official routine or legal forms, commonly applied to a too strict attention to mere formalities of no intrinsic importance. The "Circumlocution Office," celebrated by Dickens, did nothing but accumulate a large lot of forms thus carefully tied up and indexed, and "too much red-tape" is at once suggestive of the Circumlocution Office, and "How not to do it." It is sometimes used to represent a proper attention to order and method, as it has been said of Grattan by one of his contemporaries: "He would have been one of the greatest men in the world if he had only known the value of red-tape," meaning that the celebrated Irish statesman was deficient in method and orde.—*Raleigh Observer*

It is related that the late William Allen used to say that the hardest duty he had to perform as Governor of Ohio, was to say, "*No*" to women and children who appealed to him to exercise the pardoning power. It will be observed in the above remark Gov. Allen speaks of its being his duty to refuse. Whenever the Executive of a State regards this function of his office in the light of a duty there will be but little embarrassment in its proper performance. There cannot be many cases occurring in any State when it becomes the duty of the Chief Magistrate to undo what the Courts acting under the highest sanction of law have done. The pardoning power—that is the power to supervise the action of the courts—ought to be resorted to only in cases of extreme hardship. It occupies a ground in law some what similar to that which we formerly allotted to equity, the correction of that wherein the law by reason of its universality is deficient. Whatever the courts do, ought generally to stand. There should not be a recognized appeal from the jury to the Governor.

Without referring to and particular case, we take occasion to commend the present Chief Executive of the State for the care and circumspection he has used in exercising this highest prerogative of his exalted office. The power to pardon, as he justly conceives, is not a personal privilege; it is a high duty annexed to the Chief Magistracy, and by its exercise jusice ought to be advanced and never defeated.—*Raleigh Observer.*

You are right Bro. Ashe in our opinion.

DRUNKEN STUFF.

How many children and women are slowly and surely dying, or rather being killed, by excessive doctoring, or the daily use of some drug or drunken stuff called medicine, that no one knows what it is made of, who can easily be cured and saved by Hop Bitters, made of Hops, Buchu, Mandrake, Dandelion &c., which is so pure, simple and harmless that the most frail woman, weakest invalid or smallest child can trust in them. Will you be saved by them? See other column. *

GINNING AND THRSEING ENGINES A SPECIALTY.
Repairing promptly and carefully done.

Talbott's Patent Spark Arrester, the Invention of the Age

It is really the only perfect and reliable Spark Arrester, and is superceding all others now in use. Its great efficiency is attracting universal attention, and is being endorsed by the best mechanical engineers and insurance companies.—Its prominent features are—It does not interfere with cleaning the tubes—It will not choke up, and requires no cleaning—It requires no direct dampers to be opened when raising steam (dampers being objectionable, as they may be left open and allow sparks to escape)—It requires no water to extinguish sparks, which by condensation destroys the draft. Besides, when water is used, if neglected the efficiency is destroyed by evaporation of the water, and the boiler is kept in a filthy condition. It is simple and durable and can be relied upon. It can be attached to any boiler No planter should be without one of them. Insurance Companies will insure gins and barns where the Talbott Engine and Spark Arrester are used, at same rate as charged for water or horse power.

Goldsboro Mail.

FRIDAY AUGUST 1 1879.

L O C A L.

Inferior Court in Wilson this week.

Nash county jail has but one prisoner.

The showers are gentle, mild and general.

Newberne papers quote corn at 58 to 60cts. per bushel.

Gardens in town have greatly improved since the rains.

There are some papers that neither give credit nor pay cash says the *Star*.

The people of New Orleans think they cannot escape the yellow fever.

Encouraging news from Draughon's X Roads section about the Railway.

Communications from "R. J. S." and "C," came in two late for this issue.

Wayne will raise an average crop after all if seasons are favorable from this out.

The office and material of the Warrenton News was distroyed by fire a few days since.

Crops greatly improving, is the message we get from our farming friends from all quarters.

Several fine brick stores are taking the place of those burned in Wilson last fall.

A steam boiler exploded a few days since at Enfield killing one white man and two negroes instantly.

General rains and a great improvement of crops is the cheering news from all directions this week.

Judge Faircloth lett on Tuesday last for Springs in Va. He will be away from home until about the 1st of Sept.

Messrs Jasper McArthur of Sampson, Brown Quinn and E. Joyner of Duplin, in town on business this week.

Dr. Hill of Duplin was to see us Saturday. He thinks Hon. Swift Galloway, makes an excellent State officer.

The presence of Hon. R. R. Bridgers is wanted at a Railroad meeting to be held in Castalia, Nash county, on tomorrow.

The many friends of Mrs. Asher Edwards of this place will be pained to learn that she is very ill with typhoid fever.

The health of the place is good when taken as a whole, yet we have had and have now a few cases of typhoid fever.

The stock of leaf tobacco now on hand is much smaller than at this time last year, with present prospects poor for a full crop this year.

The editor of the *Free Will Baptist* is after Mr. Patterson in a long editorial, which, by request, is copied on the first page of to-day's issue.

It is with great pleasure that we state that Mr. R. M. Freeman whose life at one time was dispared of by his friends is now out of all danger.

Masters Willie Dortch and Jonnie Borden, of this place, and Henry Thorp of Nash, left for the Bingham school on Tuesday of this week.

The fall session of Prof. Troy's school will open on the 5th of August in the public Academy instead of his residence where it was taught last session.

To Mr. Arthur Prempert of Durham, who has been visiting friends here, this week, we are indebted for a pound package of fine smoking tobacco.

One sturgeon, 140 lbs and seven large gar fish was the fruits of one haul of a sein in the Neuse, near Ashley Whitley's place in Johnston county last Friday.

The name of Judge Thomas Suttle is prominantly mentioned as the comming man for the Republican nomination for Vice President on the ticket with Gen. Grant.

The *Star* of the 30th inst. quoted Spirits of Turpentine at 25¼ cts. per gallon, common strained Rosin $1.00, good strained $1.05, yellow dip Turpentine $1.75, virgin $225 per bbl.

Mr. R. E. Blackly, of the *Lenoir Topic*, has taken to himself an accomplished, young and beautiful wife from old Virginia. Miss Mary M. Morgan of Petersburg was the happy bride.

We are informed by Mr. W. H. Marshall, one of the general assessors for the county (of Craven) at large, that the crops throughout the county are just simply magnificent and superb.

Mr. Willis Cole from Grantham's Township was in to see us Monday, and give an encourageing accout in regard to the willingness of that section of Wayne to make liberal subscriptions to the Harnett Railway.

The Petersburg *Index-Appeal* welcombed the first showers of the recent rains with the endearing appellation, "The blessed rain," and so it is with every blessing from the hand of our Heavenly Father—they are all blessed.

The canvass for a county subscription to the Greenville Railroad goes bravely on in Greene, we have sent them a supply of approval tickets with the hope that enough of them will be voted to carry subscription.

We understand that Hollowell & Peterson will leave special cars for the accommodation of their friends at La Grange and Kinston on their grand Excursion Aug 6th. This bids fair to be an excellent Excursion. *

It is a little singular says the Wilmington *Star*, that all the recent rains have commenced between mid-night and day. We think they begin here at all times of the day and night, and comes gentle and refreshing.

Mr. W. W. Ipark, who recently moved to Selma to conduct the drug business for Drs. Vick & Noble, made a flying visit to his old home on Saturday last. Will, is a clever young man, and his many friends here were glad to see him.

Hope our people will not have any dispute over each trying to get in the class of seven to raise the $7,000 for the Harnett Railroad. We would stretch out the thing a few names rather than have a fuss among friends.

At the Friends Quarterly Meeting last Saturday, that new and elegant Church, usually called Falling Creek, in this county, was officially *recognized*, and recorded, receiving the name of Bethany, by which it will henceforth be known.

Dr Bull's Baby Syrup is recommended by druggists as being a purely vegetable and reliable preparation for Babies. Price 25 cents. *

The centennial fever is getting up considerably. On the 7th of October 1880, the Battle of Kings Mountain, fought on the 7th of October 1780, is to be celebrated on the battle ground. There is such a thing as over doing a good thing.

Mr. W. T. Dortch, who has just returned from New York, says the recent rains have been distributed all along the rout. He thinks from the appearence of crops that the drought was more severe in Virginia than at any other point in his rout.

Mr. Thomas M. Killett of Pikeville township informs us that he and Mr. E. C. Futrell, who farms together, have a stalk of cotton 14 inches high 4 bolls and 51 forms. The land upon which it grows is of poor quality, and no fertilizers were used.

Hollowell and Peterson will run another grand Excursion to Morehead City on August 6th, and return on August 7th. Fare will be only one dollar for round trip. Their Excursions are always orderly and enjoyable. They look after the comfort of their passengers.

A correspondent from Peacock's X Roads, say: "We have fine rains, also crops show signs of improvement, and while we cannot expect full crops, more will be made than was expected. The best informed men say that $20,000 can and will be raised for the Railroad."

H. F. Grainger, Esq., left for Greene on Wednesday afternoon, to address the people of that county upon the importance of the Goldsboro, Snow Hill & Greenville Rail Way He is a hard worker, a rising man in Eastern Carolina, and what he finds to do, he does it with all his might.

The town authorities has placed a new patent water elevator in the well on East Centre street near the Gregory House. It is claimed for this new invention that the air being forced into the water through the cups arranged on an endless chain agitates and purifies the water.

The most inexcusable folly is to endure Dyspepsia with all its miseries, when a 25 cent bottle of Dr. Bull's Baltimore Pills will cure the malady.

Over $50,000 of the $80,000 pledged on the grand campaign for the Harnett Railway has been already subscribed, and the work goes bravely on. Friends don't be discouraged! Goldsboro will do her duty; mark our words. We regard the building of the road as almost absolutely certain.

We have been pained by the intelligence of the death of Mrs. S. S. Alsop, of Enfield; a most estimable lady she was. We had the honor of being the guest of her and husband a short time since, and little did we suppose our parting with her then was the last time we should see her face on earth.

The remains of Mr. J. B. Baker, whose death was announced in the last issue of the MAIL, was brought from Mt. Olive where he was visiting his sister, to this place for interment in the town cemetery. He was burried with the honors of masonry, and his funeral largely attended by our people on Sunday evening last. The funeral discourse was delivered by Rev. Mr. Isler. Mr. Baker had many friends in this place and his family have the sympathy of our people.

Mrs. Martha Arrington of Halifax, died at a ripe old age, at her home on Friday of last week. "Blessed are the dead that die in the Lord, yea saith the Spirit they rest from their labors and their works do follow them." To her children and the surviving relatives and friends we tender sympathy and condolance.

J. C. Hundley of Granville has invented a machine and has obtained a patent upon it that he calls an "orderer." From what we can learn of its use, it is a distributor of steam over a barn of tobacco so that it can at any time desired be put in case for stripping and preserves the brightness of the leaf, tobacco raisers in Granville who have seen it think it will add much to the tobacco interests.

On the 1st Thursday in August, the voters of Greene county will vote upon the question of a county subscription of $50,000 to the Goldsboro, Snow Hill and Greenville Railway, and if a majority shall say subscription, we think Wayne and Pitt should feel honor bound to raise an equal amount by private subscription, in as much as they have refused to submit the question of subscription to the people.

Those who desire to visit Beaufort this season should not forget the Excursion train that goes down on the 6th inst., Wednesday of next week. It is the only chance that will be offered this season to go and return for one dollar, so far as we know or have heard. Those up the Wilmington road can take the morning train South and reach here in time for the Excursion train.

The Governor offers a reward of two hundred dollars for the capture of Deems Simmons, col., who killed David Lanier, of this county; a report of which was given in the MAIL. It may be infered that the Governor supposes all the readers of the MAIL to be too lazy or cowardly to ketch a runaway even for the money as he never has taken occasion to say to them that a reward has been offered.

Mr. W. H. Smith, of the late firm of Smith, Palmer & Co., having bought the interest of Mr. A. B. Palmer, deceased, the firm name has been changed to W. H. Smith & Co.; and the business conducted as before the death of Mr. Palmer, at the same place. The house is well known as a first-class hard-ware establishment. The stock kept is large and varied. Mr. Smith and his associates are of our most substantial men; enterprising, honest and correct.

We are indebted to the committee of arrangements for an invitation and ticket over the Seabord & Roanoke R. R., and with the privilege secured for obtaining a ticket for one cent per mile over the W. W. road to attend the great entertainment to N. C. people on the 5th inst. We bespeak a pleasant time for those of our friends who can attend. We know the people of Norfolk to be hospitable and alive to every impulse that go to make up a chivalrous and high toned community.

A correspondent from Meadow says: "Count certain on the $20,000 pledged you from Meadow Township to the Harnett road. What may we expect from Goldsboro, the inactivity of your people is having a depressing effect upon some, why don't your people move forward." To our esteemed friend who writes thus we beg to say, dont get impatient, our people are waking up and will redeem the pledge we made for Goldsboro. Stick a pin there and go ahead.

We know of no institution of learning for young ladies that is more deserving of patronage than that of the Chowan Baptist Female Institute. The parental like care exercised over the girles causes parents who know the President as we do to feel perfectly secure in committing daughters to his guardianship, and withall the course is thorough, instruction the best and charges low. The institution was established in 1851—twenty eight years ago, and not a stain upon its fair name has ever been heard. Write to Dr. A. McDowell for catalogue and other particulars.

THINK OF IT—Our excursion train for Morehead City leaves Goldsboro at 7:45 on the morning of Aug. 6th and returns on evening of 7th.—To persons going on this train, tickets to Goldsboro and return at three cents a mile each way, good from Aug. 5th to 8th, will be sold at the following stations:—Rocky Mount, Sharpsburg, Toisnot, Wilson, Black Creek, Fremont, Dudley, Mount Olive, Faisons, Warsaw, Magnolia, Princeton, Pine Level, Selma, Wilson's Mills and Clayton. As this will in all probability be the last Excursion this season, we advise all to go on it. We think we can safely promise a more comfortable class of cars than we have been able to run heretofore, having promise of some coaches from N. C. R. R.

☞Remember, the fare is ONLY ONE DOLLAR. Now is the time.

HOLLOWELL & PETERSON.

Headquarters Excursion Department
Goldsboro, N. C., July 30, '79.

HOW TO GET SICK.

Expose yourself day and night; eat too much without exercise; work too hard without rest; doctor all the time; take all the vile nostrums advertised, and then you will want to know

HOW TO GET WELL.

Which is answered in three words—Take Hop Bitters! See other column.

EXCURSION NOTICE.—Tickets to Goldsboro and return at three cents per mile each way, good from 5th to 8th of August, will be on sale at Rocky Mount, Sharpsburg, Toisnot, Wilson, Black Creek, Fremont, Dudly, Mount Olive, Faison, Warsaw and Magnolia, to persons going to Morehead City on our Excursion, which leaves here at 7:45 A. M. Aug. 6th, returning at 11:45 P. M. on 7th, in time to connect with night train going North on W. & W. R. R. Persons North of Goldsboro, by taking morning train on 6th will make close connection going and returning. This Excursion is for whites only, and crowds of them are going.

FARE ONLY $1.00 FOR ROUND TRIP.

From every hill and valley,
In Lenoir, Greene and Wayne,
We hear that crowds are coming,
To go on our train.
From Sampson and high Johnston
We hear the same report,
And Wilson, Nash and Duplin
Will help us HOLD THE FORT.

HOLLOWELL & PETERSON.

Headquarters Excursion Department,
Goldsboro, N. C., July 24, '79. *

Mail Missires.

Wm. H. Vanderbilt, has recently purchased four million dollars of U. S. 4 per cent Bonds.

A colored youth, 17 years of age was drowned in Atkinson's Mill pond while bathing, a day or two since.

That breast plates were worn by many of the Federal soldiers during the late war, there appears to be abundant proof.

Many women in Boston are asking that they may be assessed for a face tax that they may be alowed a vote next fall.

The New Berne *Democrat* says: "There are two kittens in this city which have six well formed and well developed legs."

The appearance of the yellow fever at Memphis has put a quietus upon the Exodus to Kansas of the colored people, which we regard as unfortunate for the South.

Hon. Robt. W. Johnston, of Little Rock, Ark.; died on Saturday night last. He had represented his State in Congress, both in the House of Representatives and Senate.

The Greenville *Express* gives accounts of distructive fires in the county of Pitt. Much fense has been destroyed and large bodies of valuable woodland have been greatly damaged; thought to be the work of incendiaries.

Governor Vance will be heard from in Ohio in a few weeks, as he is to take part in the Gubernatorial campaign in that state. We predict that his speeches will do both himself and the cause he goes to promote good.

The crops in this section are suffering seriously from the long drought and it is supposed that the yield will be short. In some places even the undergrowth in the woods is shrivelling up and dying from want of moisture.—*Roanoke News.*

A woman in Bertie county became so badly frightened during a severe storm a few days ago, that she appeared to be dead, and was about to be buried when she revived, says a Bertie correspandent of the Roleigh *Observer*.

Rev. Dr. Dickerson, of the Methodist Curch, says that Chastine Cox, the murderer of Mrs. Hull, is all ride and ready for heaven—that he is truly a Christian. Such piety as this does a vast deal of harm.—Wil. *Star.*

We think you are correct Bro. Kingsbury.

A Rochester paper speaks as cooly of tanning the hide of a dead negro as if the poor negro had been a hog, yet the poor negro must not be left to the mercy of Southern people, even if they do give them decent burrial instead of converting their hides into shoe strings.

Mr. Geo. Bate has had on exhibition at Mr. T. H. Smith's store quite a cusiosity in the shape of a Guinea egg, with a very striking and correct representation of "Old Sol" impressed on the shell. This might be taken as one of the effects of the intense heat, but it was laid where the sun's rays never penetrate.—*Wilmington Star.*

One fatal case of yellow fever is reported in New Orleans, which we fear is but the beginning of the long list soon to succumb to that terrible plague. Memphis is nearly depopulated with the fright, and as there are comparably few left and streneous efforts are being made to check the spread of the epidenic. We hope the terrible scourge may be abated.

A mulatto man of Atlanta, that calls himself Bob Webster and who claims that a mulatto house girl at Washington was his mother, and Hon. Daniel Webster his father, is having a lecture fixed up to be delivered in Boston and other places north. Go ahead Bob if you can get any droppings from the table of your worshiping kindred, get it we say. The old statesman is gone, he can stand it if Bob's other kin can.

Last Monday, says the Wil. *Star*, a terrible storm of rain fell in and around Pittsburge, Pa. Twenty-five houses in Petrollia, were swept away and destrayed. The people of that section barely escaping with their lives; some miners narrowly escaped drowning. The only known loss of life so far reported is that of Mrs. Daily, who was drowned in attempting to cross a creek at Irwin's Station. The rain-fall is reported seven inches.

William Horn, of New York has instituted two suits against the State of North Carolina, one for past due coupons at a bond issued in behalf of the Western N. C. Railroad company under act of Feb 3rd 1869. The other for coupons of above issued for the same road under act of Dec 18th 1868. These suit will bring before the court the question of validity of the special tax bonds, the suits were instituted in the supreme court under section 11 act 4 of the constitution.

W. F. Kornegy & Co. are receiving a Car Load of fresh Lime every week.

Another large stock of Childrens Carriages just received at Fechtler & Kern's. Selling off at cost.

TUTT'S PILLS!

INTRODUCED, 1865.

A TORPID LIVER

is the fruitful source of many diseases, prominent among which are

DYSPEPSIA, SICK-HEADACHE, COSTIVENESS, DYSENTERY, BILIOUS FEVER, AGUE AND FEVER, JAUNDICE, PILES, RHEUMATISM, KIDNEY COMPLAINT, COLIC, ETC.

SYMPTOMS OF A TORPID LIVER.

Loss of Appetite and Nausea, the bowels are costive, but sometimes alternate with looseness, Pain in the Head, accompanied with a Dull sensation in the back part, Pain in the right side and under the shoulder-blade, fulness after eating, with a disinclination to exertion of body or mind, Irritability of temper, Low spirits, Loss of memory, with a feeling of having neglected some duty, General weariness; Dizziness, Fluttering at the Heart, Dots before the eyes, Yellow Skin, Headache generally over the right eye, Restlessness at night with fitful dreams, highly colored Urine.

IF THESE WARNINGS ARE UNHEEDED, SERIOUS DISEASES WILL SOON BE DEVELOPED.

TUTT'S PILLS

are especially adapted to such cases, a single dose effects such a change of feeling as to astonish the sufferer.

TUTT'S PILLS

are compounded from substances that are free from any properties that can injure the most delicate organization. They Search, Cleanse, Purify, and Invigorate the entire System. By giving the congorged Liver, they cleanse the blood from poisonous humors, and thus impart health and vitality to the body, causing the bowels to act naturally, without which no one can feel well.

A Noted Divine says:

Dr. TUTT:—Dear Sir: For ten years I have been a martyr to Dyspepsia, Constipation and Piles. Last Spring your Pills were recommended to me; I used them (but with little faith). I am now a well man, have good appetite, digestion perfect, regular stools, piles gone, and I have gained forty pounds solid flesh. They are worth their weight in gold.

REV. R. L. SIMPSON, Louisville, Ky.

TUTT'S PILLS.

Their first effect is to Increase the Appetite, and cause the body to Take on Flesh, thus the system is nourished, and by their Tonic Action on the Digestive Organs, Regular Stools are produced.

DR. J. F. HAYWOOD,
OF NEW YORK, SAYS:—

"Few diseases exist that cannot be relieved by restoring the Liver to its natural functions, and to this purpose no remedy has ever been invented that has as happy an effect as TUTT'S PILLS."

SOLD EVERYWHERE, PRICE 25 CENTS.

Office 35 Murray Street, New York.

☞ Dr. TUTT'S MANUAL of Valuable Information and Useful Receipts" will be mailed *free* on application.

TUTT'S HAIR DYE.

GRAY HAIR OR WHISKERS changed to a GLOSSY BLACK by a single application of this DYE. It imparts a Natural Color, acts Instantaneously, and is as Harmless as spring water. Sold by Druggists, or sent by express on receipt of $1.

Office, 35 Murray St., New York.

RIDAY, AUGUST 1, 1879.

How to Keep Cool.

Correct habits of body and mind will antagonize and generally overcome the most persistent efforts of the sun. To begin, avoid heating food; most people allow the palate to determine what they shall eat and how much, which is as foolish as to allow the family fire to select such fuel as best pleases it—gunpowder, nitro-glycerine, etc. Do not increase your physical temperature, particularly that of your head, by drinking alcoholic beverages; when water will not suffice as a drink consult a physician instead of a barkeeper. Use water externally with frequency; no one can get rid of superfluous heat through a skin, the pores of which are tightly sealed. If you have a great many cigars that ought to be smoked before they grow dry and tasteless, give them to your enemy; it is better that his liver be deranged than yours, for a torpid liver induces a weak, hot head. At least once a day take exercise enough to cause free perspiration; the man who perspires most is always the coolest; the soldier on drill in woolen clothing under a hot sun. with the thermometer in the nineties, is more comfortable than the lounger in white linen and sun umbrella who looks at him. If you have a first-rate thing to get angry about lay it carefully away until cold weather. Do not worry; it is frightfully heating as well as physically extravagant. Sleep regularly and full hours, resisting the temptation to sit up late because the evening is the only cool part of the day, A hundred other suggestions might be offered, but the above, if followed, will enable many a heat-ssrieken mortal to imagixe that this is not so dreadfully hot a summer. —*Phil. Press.*

The River Danube.

The river Danube has figured largely in history for 2,000 years, and it again becomes the object to which the eyes of the whole world have turned. It furnished a highway for the Turks in the sixteenth and seventeenth centuries to penetrate Europe as far as Vienna, and in the days of the Crusades it became an outlet for the religious enthusiasm of Europe to flow to the Holy Land. The Danube, from its source in Baden to the Black Sea, is 1,820 miles long, and it drains with its tributaries an area of over 300,000 square miles. It passes through Bavaria, Austria, Hungary and Servia to the Carpathian Mountains, where it separates Roumania and Bulgaria, and passes into the Black Sea through several mouths, the principal one one being that of Sulina. The Danube is navigable for steamers as far as Ulm, in Bavaria. At Nicopolis in the fourteenth century, 100,000 Christians were driven by the Turks into the Danube, and, in the fifteenth century, 40,000 Turks were slain on its shores at the siege of Belgrade.

Attempt to Steal a $30,000 Dog.

A man who on Saturday morning refused a dead-head admission to the dog show at the Driving Park, subsequently stole into the building at the rear. He was seen immediately afterwards taking away the dog, Dash III.—Decimal, which it is claimed is worth $30,000, and is in charge of the Rev. Macdona, of England. The intruder, who had falsely misrepresented himself as a member of one of the sportsmen's clubs on the grounds, was seen and stopped by Mr Lincoln, manager of the dog show. The valuable dog was taken back and replaced in the kennel. This animal bonanza is a companion to the red Rover, an Irish setter, valued at $20,000.—*Rochester Democrat.*

An Aged Turtle.

About the middle of June, a turtle was taken in the St. John's River, Florida, with the Spanish coat of arms and the date 1700 engraved upon his back. There was also inscribed in Spanish the sentence: "Caught in 1700, by Hernando Gomez, in the St. Sebastian, and was carried to Matanzas by Indians; from there to the Great Wekiva." The "Great Wekiva is the name by which the St. John's River was formerly known. The turtle was put back into the river with the added inscription: "*Eastern Herald*, Palatka Florida, 1879."

A Fatal Sleep with a Rattlesnake.

Miss Walker, aged 16, living with her father, S. C. Walker, eight miles from Jackboro, Texas, retired to bed and slept all night with a tremendous rattlesnake, seven feet long, which crept into the bed. About daylight Miss Walker turned upon her pillow, when the snake struck her in the forehead with his fangs and instantaneously coiled around her throat. She screamed and fainted. The reptile was finally killed, but it is believed Miss Walker cannot live.

Mrs. Dye of New Garden, Tenn., killed a snake in her garden about three feet long, with a head on each end, both heads about the same size. It fought with both heads and crawled after one head or the other, as it liked best.

A Georgia woman awoke her husband during a storm the other night, and said: "I do wish you would quit snoring I want to hear it thunder.

Ginning Engines,

METROPOLITAN WORKS,

Canal Street from Sixth to Seventh,
RICHMOND VA.

ENGINES, portable and Stationary; Saw Mills, Grist Mills, Boilers, Castings of Brass and Iron, Forgings, &c. Machinery for Gold and Coal Mines, Blast Furnaces, &c.

We call special attention to our Improved Portable Engines, for agricultural and other purposes. To our new style Small Locomotives for hauling lumber and other articles upon tramways and narrow-gauge railways.

SHAFTING, PULLEYS, &c., FOR GIN HOUSES.

Eminent planters in North Carolina and other Southern States consider our ginning engines the best and cheapest in use absolutely safe from sparks.

The Boilers of our Agricultural Engines are provided with our Patent Premium Spark Arresters, a device by which the sparks are forced to pass downward over a reservoir of water and effectually extinguished without the use of wire gauze. Ours is the only arrangement of this kind which affords free access to the boiler tubes for cleaning from each end

Yours truly,
WM. E. TANNER & CO.
